MAINT-NA24X7X3	North America 24X7 – 3 years in advance		60%		60%

## Notes:

INFRASTRUCTURE	[1] HA/DR items are required also when using Virtualization solutions for stand-by instance (e.g. Vmotion)
	[2] A CPM Site License allows unlimited CPM instances within a single Vault instance (including related HA and DR Vaults)
	[3] AIM, OPM and PSM line-items are the same across Server and Enterprise Packages.
	[4] Need at least 30 user licenses and 500 passwords in Server Package for upgrading to Enterprise Package
AIM	[1] Application Server Credential Providers (ASCP) include one basic Provider license for using on the OS running the Application Server
	[2] ISVAIM integrations are priced per the number of Servers, Appliances or Engines making SDK calls to the Vault (e.g. customer with 5 Vulnerability Management appliances would need 5 ISVAIM licenses)
PSM	[1] Choose either "per-target" or "concurrent" licensing schemes. New or existing customer licenses cannot mix "per-target" and "concurrent" schemes. Contact Cyber-Ark for any questions or when needing to convert previous PSM license schemes
	[2] Target Servers for PSM for Servers include Unix/Linux, Windows, iSeries (AS400), zSeries (MF), network devices and web-applications
	[3] Target database instances for PSM for Databases include Oracle RDBMS and Microsoft SqlServer. Licensing is per database instance (passive/stand-by nodes do not require license)
	[4] Target Servers for PSM for Virtualization include hypervisors (e.g. ESX and ESXi) and management consoles (e.g. vCenter)
	[5] "PSM Only" packages do not include EPV functionality and should be quoted using Infra and PSM line items only. EPV, AIM or OPM line items are not allowed in PSM-only quotes.  Existing PSM-only customers who wish to upgrade to EPV should purchase matching EPV user-license for all users defined in the system (including "PSM only" users).
SERVICES	[1] No discount is allowed on any of the Maintenance and Professional Services items
	[2] The annual maintenance fee for the first and subsequent years will be X% of the actual Total Product Price, where X is as stated in the relevant pricing group.
	[3] The first year maintenance is NOT included in the Product Price, and therefore should be added as a separate line item to every price proposal.
